Preview items and food available 11:30-12:30

We are soliciting donations from businesses which we can, in turn, use as auction items to raise funds for the community. You can help by making a donation of the services provided by your business, gift cards or gift certificates, or an item or basket of items or products which you sell at your establishment. Maybe you would consider making more than one donation. This is your opportunity to give back to the community also and take a tax exemption for your donation.

We appreciate your consideration of this request and are looking forward to partnering with your business in this effort to help the local community. Please contact me with any questions you may have.

Sincerely,
Dr. Irene C. Jones
